Dear Awase,

My name is Nikhil and I'm a recruiter at Axelon Services Corporation. We have your resume on file and I thought you may be interested in an opportunity we currently have available for a **Project Manager** with a major company located in **Mississauga, ON**. Please review the job description below.

If you are qualified and interested in pursuing this opportunity, please call me at (212) 488-7748 ASAP. You may also send me an e-mail, if you do respond via e-mail please include a daytime phone number and an updated resume so I can reach you. In considering candidates, time is of the essence, so please respond ASAP.

If you do not feel like you are a good fit, but you know someone who may be looking for a position like this, please feel free to forward this email onto them. I also encourage you to visit our website at [www.axelon.com](http://www.axelon.com) for all of our job openings.

**Global Financial Firm located in Mississauga, ON has an immediate contract opportunity for an experienced Project Manager**

*"This role is currently on a Hybrid Schedule.*

*You will need to have reliable internet, computer and android or iphone for remote access into the client systems during remote work.*

*We will be expected in the office weekly 3 days depending on the team requirement.*

*\*\*\*\*Video/f2f interviews are required prior to all offers.*

**Job Title: Project Manager**

**Role Description:** Seasoned Project Manager with experience in major/complex institutions (Tier 1 banks or Top 4 consulting firms), working within Regulatory/Client Data Management projects to work on Client Data Management within the Front Office COO Transformation Team. Broad Markets experience required with the ability to operate effectively across all asset classes and understand front – to – back flows within Markets.

**Key responsibilities will include:**

1. Drive development of strategic solutions to facilitate best in class management of client static data including scalable processes to mask client data.
2. Lead a project workstream(s) to ensure requirements of the business case are defined and implemented within agreed timelines.
3. Facilitate effective communication and collaboration with stakeholders across various levels and functions. Build consensus and secure buy-in for project objectives and deliverables. Manage stakeholder expectations and address concerns proactively.
4. Collaborate effectively with cross-functional teams, including Front Office Desks, Technology, Operations, Legal, and Compliance, to ensure alignment on project requirements and deliverables.
5. Develop detailed project plans encompassing scope and timelines across multiple workstreams, incorporating dependencies and critical path analysis.
6. Proactively identify, assess, and mitigate project risks and issues. Develop escalation paths and contingency plans. Ensure timely and transparent communication of risks and issues to relevant stakeholders, including senior management ensuring these are documented and escalated where appropriate.
7. Prepare concise and impactful PowerPoint presentations for weekly reporting and monthly governance

forums, highlighting key achievements, risks, issues, and upcoming milestones. Communication to be tailored based on audience.

8. Comply with Client's Project Management Council (CPMC) standards and surpass threshold metrics: Maintain accurate and up-to-date project information in the Project Tracking System and ensure proper documentation of project artifacts for audit and compliance purposes.

### Key Skills Required:

- Proactive, self-starter with ability to independently lead initiatives, requiring minimal oversight after initial direction
- Strong analytical and problem-solving skills, with the ability to think critically and develop creative solutions to complex challenges.
- Client Data Management: Demonstrate a strong understanding of front-to back Markets Client Data Flows and navigation of impacted systems and processes
- Strong understanding of Markets products (e.g., Equities, Fixed Income, FX, Commodities) and trading environments.
- Proven ability to effectively navigate large, complex, and diverse teams and projects, fostering collaboration and resolving conflicts constructively
- Experience in identifying, assessing, and mitigating project risks within the context of financial markets.
- Proven ability to build and maintain strong relationships with key stakeholders, manage expectations, and influence decision-making.
- Advanced proficiency in MS PowerPoint, including data visualization and presentation of complex information.
- Ability to use MS Excel for large data sets to identify, report and drive change

Note: Please allow me to reiterate that I chose to contact you either because your resume had been posted to one of the internet job sites to which we subscribe, or you had previously submitted your resume to Axelon. I assumed that you are either looking for a new employment opportunity, or you are interested in investigating the current job market.

If you are not currently seeking employment, or if you would prefer I contact you at some later date, please indicate your date of availability so that I may honor your request. In any event, I respectfully recommend you continue to avail yourself to the employment options and job market information we provide with our e-mail notices.

Thank you,  
Nikhil Kapaganti

Hi Naga,

This guy has been emailing me constantly. I am not sure I have ever expressed interest in this company. Can you please call this guy and enquire about the company. I suspect this guy is calling on behalf of RBC/CGI, proxy. The position they are mentioning is COO office. I think this is the top guy who is BITSIAN(BITS,PILANI) alumni working with RBC as COO. If you enquire, my suspicion will be right. Something is very sinister with these guys. They are some way connected to Scammer Abhishek Joshi. Or trying to protect him

regards  
Awase
